

Partner with us and get started on your BPR dossier today!

WHY PARTNER WITH US

Our team of expert consultants is well-versed in the latest regulations and stakeholder demands, enabling us to help clients innovate towards sustainable use of biocidal products and active substances.

Our approach is grounded in a deep understanding of regulatory compliance and risk assessment, which allows us to provide actionable recommendations that are both efficient and environmentally-conscious.

Whether you're looking to develop new products or improve existing ones, we're here to help you achieve your sustainability goals.

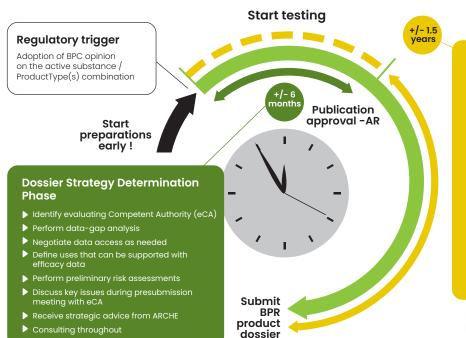

OUR FEATURED SERVICES

Dossier Preparation & Submission

- Data gap analysis
- Risk assessment
- Technical equivalence assessment
- ▶ ED assessment
- ▶ Test coordination and waivers
- ▶ IUCLID and R4BP3
- Pre-submission meetings with ECHA and evaluating CA
- Post-submission support
- Residues of ASs in drinking water treatment processes

Regulatory & Sustanaibility strategy

- Product strategy and development
- Low-risk active substances and product development support
- Alternatives assessment and substitution planning
- Portfolio management
- Regulatory monitoring and updates
- Green Chemistry support

Data Generation and Evaluation Phase

- Substantiate each efficacy claim with data or read-across
- Include storage stability results in commercial packaging to support shelf life claims
- Screen all ingredients for endocrine-disrupting properties
- In case of risks, further testing or data collection may be required

Dossier Preparation Phase

- Product Assessment Report (PAR)
- ▶ IUCLIE
- Summary of Product Characteristics (SPC)

Early risk assessment helps to anticipate and address data generation challenges
