Interfacing business, government & society

Established in 1987, EPPA is a respected multi-disciplinary and multi-cultural consultancy with a pan-European reach.

Our impressive track record in resolving major challenges related to public policy, regulatory affairs and societal issues is founded upon our in-depth knowledge, understanding and appreciation of the European and national political interface.

Who we are

Elevate your business with EPPA's expert guidance through the adoption of secondary legislation. We translate data into compelling arguments, specializing in **regulatory decisions, public policy, and legislative initiatives**. Align your strategies with upcoming changes, benefit from impactful assessments, and build dossiers with our comprehensive services. Foster open dialogue with our publications and training, creating consensus spaces between businesses and governments. From research and development to regulatory architectures, EPPA ensures your success, strengthening the interdependence between governments and markets for growth, welfare, and stability.

Workshops &
Trainings

The European Training Institute (ETI) focuses on developing skills for professional interactions with the European Union at different career levels.

They provide open enrollment courses in areas such as comitology, EU decision-making basics, and advocacy.

Tailor-made training and coaching are offered, addressing individual or group needs with a focus on client priorities.

ETI's interactive 5-hour seminars cover diverse cross-sectoral topics, including agriculture, food legislation, public health, pharmaceuticals, environment, energy, and financial services over the past two years.
